American Trade With Germany by Pure Barter or Whatever Way.

In the announcement of THE SUN'S staff correspondent in Berlin that the Germans have proposed or will propose to American trade organizations a scheme of pure barter on primitive principles-goods paid for with goods -there is nothing new in present German practices. For the matter of that, the bulk of international trade the world over is based on the exchange of commodities, with the balances struck in gold.

For months German merchants have Holland, for example, raw hides are bought on the basis of payment in products to come out of those hides. The hides are taken across the border, are cured and tanned into leather Motor Cars in Modern Civilization. by German hands. The leather is from one side to the other.

Than Goods.

In its year end review of American problem" of decreased productionand consequent increased prices of products-attributed that drag on the return to wholesome normal economic conditions to the curtailment of work by industrial employees, framing its ease thus:

From many sections It is reported (by the Reserve Board's agents) that 'the chief difficulty does not lie in evatematic strikes but in the indisposition of workers to increase production and keep steadily at work. The reduced output as a result of very short hours or the suspension of work a given number of days a week has proved to be a national problem.

"The disposition of labor to pursue such a policy is ascribed by many to high wages and the desire to employ the increased purchasing power thus obtained in the purchase of leisure rather than goods."

more work must be done, greater production must be attained in this highways has been impressed on resi. more work must be done, greater production must be attained in this country. Until these things are acin the crude way of past ages. In production must be attained in this highways has been impressed on residue want. World Problem Solved in Nine Words.

To the Editor of the Sun—Sir: Your editorial article on the "Duty of America's workers" has nine words in it that have been my slogan for some months past. You cannot make them too prominent or repeat them too often. The same to be a fight on it. It is Borah's argument that the claim of the Nile argument that the land of the Nile argument to the next measure being the high School, Irving place and the Valley of the Nile argument to revolution, is the next measure being the revolution. The revolution and incitement to revolution, is the next measure being the revolution and incitement to revolution.

"Cairo and the Valley of the revolution is the next measure being the revolution and incitement to revolution. The revolution and incitement to the revolution and incitement to the revolution.

The Samalest Known Thing.

"The Samalest Known Thing."

The Samalest Known Thing.

The Samalest Known Thing Workers" has nine words in it that have been my slogan for some months past. You cannot make them too prominent or repeat them too often. They assert a common sense principle and cannot be assailed in any way by any class.

"An honest day's work for an honest day's work for an honest day's pay" will solve the principal trouble as to our living problems in this country as well as the whole world. B. Workerstein, Mass., January 3.
